

**BLAME SALAD FOR POISONING OF 75**  
 Birmingham, Ala., School Physicians Say Combination of Food May Be Cause

**260 STUDENTS STILL ILL**

Birmingham, Ala., Sept. 29.—The poisoning of 725 children and teachers at the Woodlawn High School Wednesday probably was caused by "a combination of certain articles in the food," according to a report made public yesterday by Dr. J. D. Dowling, city health officer, and Dr. James S. McLester, medical director of schools. The report, in part, follows: "We have carefully inspected the kitchen, refrigerator, storeroom and lunchroom at this school and have discussed in detail with the dietitian the method of preparation and service of the food. The food and milk served are of the best quality. "The only canned goods used in the menu was some tomatoes that were placed in the soup. This soup was boiled after preparation, a process that would have destroyed any possible germ or poison coming from the can. We are inclined to suspect that a combination of certain articles in the salad may possibly have led to the digestive disturbances noted. A total of 24,300 cans moved, compared with 18,800 the same week last year. Potatoes showed the heaviest gain, 2500 cars. Shipments of grapes, apples, pears, cabbage, onions, celery and sweet potatoes were also heavier, while most other lines showed decreased movement. Markets were stronger for apples. Potato shipments increased more than 50 per cent over the corresponding period last year. Minnesota led with 245 cars. There were heavy shipments from New Jersey, Michigan, Wisconsin, the Dakotas, Colorado and Idaho. Apples from barrel-shipping States filled 2240 cars, while boxed apples from other States filled 745 cars. New York sent out 774 cars; Illinois, 318; Virginia, 221; Washington, 514; California, 151.

**CAR-LOT MOVEMENTS OF VEGETABLES GAIN**  
 Heaviest Increase Made on Shipments of Potatoes

Chicago, Sept. 29.—The carlot movement of fruits and vegetables increased nearly 400 during the week ended September 23, as compared to the previous week, according to the market review today of the United States Bureau of Agricultural Economics. A total of 24,300 cars moved, compared with 18,800 the same week last year. Potatoes showed the heaviest gain, 2500 cars. Shipments of grapes, apples, pears, cabbage, onions, celery and sweet potatoes were also heavier, while most other lines showed decreased movement. Markets were stronger for apples. Potato shipments increased more than 50 per cent over the corresponding period last year. Minnesota led with 245 cars. There were heavy shipments from New Jersey, Michigan, Wisconsin, the Dakotas, Colorado and Idaho. Apples from barrel-shipping States filled 2240 cars, while boxed apples from other States filled 745 cars. New York sent out 774 cars; Illinois, 318; Virginia, 221; Washington, 514; California, 151.

**ELK DRIVE IN HAZLETON**

\$100,000 Is Sought for Erection of New B. P. O. E. Home  
 Hazleton, Pa., Sept. 29.—The Hazleton Elks have launched a campaign to raise \$100,000 for the erection of a home. Canvassers are soliciting the membership, and predictions are made that the entire amount will be subscribed within a short time. The Elks recently acquired a site in the central section of the city.

Folleason, especially traffic officers, must be polite to strangers, under orders issued here by Major James G. Harvey, who said that visitors are unacquainted with local regulations and must not be arrested for any petty offenses.

Mrs. Anna Kindt, secretary of the Young Women's Christian Association, has been named as chairman of the women's division of the Republican Committee in the Hazleton district. The appointment was made by Sylvester Engle, the newly elected district chairman.

Farmers of the surrounding valleys continue to complain about the operations of raiders, most of them parties with automobiles. It is said that large quantities of fruit and other products are being carried away every night.

**NOT ENOUGH COAL CARS**  
 Pettibone and Lytle Collieries Tied Up by Strike

Wilkes-Barre, Sept. 29.—Anthracite production is being curtailed seriously by a shortage of cars and inability of several estates to move loaded cars. Six Hudson Coal Company collieries have been idle four days. Collieries of other companies are idle three days a week. About 800 union employees at the Pettibone Colliery, of the Glen Alden Coal Company went on strike yesterday. The strike was called because three men in the fire room had refused to take out membership in the union.

Anthracite production is only about 75 per cent normal. Several collieries have been delayed by extensive repairs. Congestion of transit and a short shortage are due to the shipment's strike. In the Avoca yards today there were strings of loaded coal cars that could not be moved.

Pottsville, Pa., Sept. 29.—The Lytle colliery at Minersville was idle yesterday because of a strike. The employees at the breaker said they were required to work only six hours but in that time were expected to do as much work as they previously did in eight hours. The miners joined with the breaker employees, and mining ceased.

**KING GEORGE AS ACTOR**  
 Monarch Orders Film Showing Historical Incidents

London, Sept. 29.—King George and Queen Mary soon will see many important events in the history of their immediate ancestors and a good many incidents of their own lives through a private motion-picture exhibition in Balmoral Castle.

British film producers, who have made a special hobby of recording the activities of the royal family for many years, have been commanded by their Majesty to bring "Through Three Reigns" to Balmoral.

Along with it will go an American production depicting the life of an English film producer, who is striving to catch up with American methods and proclaim English films the best on all effects, and British exhibitors purchase approximately 90 per cent of their productions from American distributors.

Broken Neck Kills Girl  
 Mary Oetman, eighteen years old, of 780 North Eighth street, this city, whose neck was broken on June 18, when she dived into the lake at Clementon, N. J., died yesterday in the West Jersey Homeopathic Hospital, Camden.

**SEEK CUT IN RAIL FARES**  
 Ask 33 1-3 Per Cent Reduction in Mileage Facilities  
 Washington, Sept. 29.—Representatives of organizations of traveling salesmen, appearing yesterday at Interstate Commerce Commission hearings on interchangeable mileage books, asked for a reduction of 33 1-3 per cent in transportation costs by means of the proposed new mileage facilities. A. M. Loeb, president of the National Council of Traveling Salesmen's Association, said the roads should sell coupon books at a one-third discount, and argued that the policy would increase the amount of travel materially. David K. Clink, secretary-treasurer of the International Federation of Commercial Travelers' Organizations, representing, he said, 676,000 traveling men, and the Merchants' Association, of New York, through A. C. Lincoln, its traffic manager, made similar pleas.

**BRIGHTEN THE HOME**  
 Grant's Paint, Varnish and Varnish Stains  
**60c PER QUART** Mixed ready for use. Strictly high grade. All the best colors.
